

Meeting Agenda

Group meeting for The Grupp.

Participants: Sebastian, Eric, Alexander.

Date: 12/4-2018

1 Objectives

- Create and assign tasks
- Re-open meeting schedule

2 Reports

After meeting with Joachim, the group was instructed to solve several problems. The group aims to finish these before meeting with Joachim again Tuesday 19/04

- The repo needs to be cleaned, a git-ignore file needs to be added.
- The problem domain needs to be redone to better specify our problem.
- We need to better specify our use cases.
- Create a sequential diagram.
- More images showing menu logic.

3 Discussion Items

- Assign tasks
- Discuss schedule

4 Outcomes and Assignments

Outcomes:

- The group will from now on meet at 10:00 on Mondays and Wednesdays, as well as after the Thursday meetings with Joachim.

Assignments:

- Sebastian will integrate the Buttons branch into master while keeping the MVC structure.
- Sebastian will add a git-ignore file to the repo, ignoring class files and libraries. The libraries should be properly defined in maven.

- Eric will continue developing the RAD, improving on use cases, images and diagrams.
- Alexander will familiarize with the current program structure and start prototyping.

5 Wrap Up

We will all individually work on our assigned tasks until we once again meet on Monday 16/4-2108. As we aim to finish these tasks before meeting Joachim again, they all do not need to be finished by Monday. We will sync up and discuss our progress when we again meet and start implementing a sequential diagram based on the improved use cases.
