Meeting Agenda

Group meeting for The Grupp.
Participants: Sebastian, Eric, Alexander.
Date: 23/4-2018

1 Objectives

- Discuss progress since last meeting.
- Create and assign tasks.

2 Reports

The project has been restructured to better follow the MVC model, both in regards to directories/packages and overall code. There is more work to be done but we now have a common base to separately develop from.

3 Discussion Items

- Structural implementations.
- Future implementations.
- Tasks.

4 Outcomes and Assignments

Outcomes:

- The project is at a state where individual coding tasks can be assigned.

Assignments:
As we meet again tomorrow some tasks will be smaller.

- Sebastian will create a buttons class to better handle input, as well as interaction with these buttons through the view.
- Eric will refactor the code whilst keeping the flow of the program intact. The goal is to allow for easier implementation of future functionality.
- Alexander will start implementing the save functionality.

5 Wrap Up

The assigned tasks should be finished by Wednesday, the program should be executable by then.
