2 Reports

The RAD has been updated and some file structuring has been done, all UC have been implemented as well as sketches for all views. There still are some dependency issues with maven.

3 Discussion Items

- Design model structure as well as the implementation of a sequential diagram.

- What to discuss on the meeting with Joachim tomorrow.

- Task assignments.

- Refining the MVC structure of our program.

4 Outcomes and Assignments

Outcomes:

- Several questions have been discussed in preparation with meeting Joachim tomorrow, regarding the following:
  - A general description of our RAD to get some feedback.
  - MVC structure in relation to our current program
  - Project file structure
  - Coming project implementation steps.

Assignments:
As we meet again tomorrow some tasks will be smaller.

- Alexander will continue with creating character, terrain, enemy, and such models.

- Eric will work on implementing diagrams in preparation for tomorrow.

- Sebastian will attempt to solve dependency import issues in maven, or at the very least prepare with an exact description of the problem to be presented to Joachim. He will also work with creating diagrams.

5 Wrap Up

The group is meeting Joachim tomorrow at 10:15 and is scheduled to have a group meeting afterwards to discuss future tasks.
